

I CAN DO IT LYRICS

1) I CAN DO IT

Hello boys and girls, it's so good to see your face
I love to come to this happy place
Where we sing and laugh and learn and play
Let's put one thumb up, two thumbs up
Point to yourself and say

I can do it, I can do it, I can do it.
I put my heart and my mind to it
And I can do it.

I can tie my shoes, read my books
Sing the alphabet through.
I can write my name, write my numbers
There's tons of things that I can do.
Like being kind to my friends

I can do it, I can do it, I can do it.
I put my heart and my mind to it
And I can do it.

What I tell myself is a powerful thing
It turns night into day, winter into spring
When I start to feel it in my heart
And hear it in my mind,
When I hear it in my mind I find that

I can do it, I can do it, I can do it.
I put my heart and my mind to it
And I can do it. I can do it. I can do it.

2) It's Up To Me

Chorus:

It's up to me. I choose, it's up to me
It's up to me. I choose, it's up to me
What to wear, what to do, what to feel, what to be
I choose, it's up to me

Verse:

What to wear, what to wear, what wear

Red or yellow or pink or blue
To make a choice I think it through
I use my voice, I make my choice
What's it gonna be? It's up to me

What to do, what to do, what to do

A book or a puzzle or glitter or glue
To make a choice I think it through
I use my voice, I make my choice
What's it gonna be? It's up to me

Chorus: repeat chorus

Verse:

How I feel, how I feel, how I feel

How can I show my feelings to you?
To make a choice I think it through
I use my voice, I make my choice
What's it gonna be? It's up to me

What to be, what to be, what to be

What could be my dream come true?
To make a choice I think it through
I use my voice, I make my choice
What's it gonna be? It's up to me

Chorus: repeat chorus

3) I've Got Two

I've got two (clap, clap) helping hands
I've got two (clap, clap) helping hands
They may be small but they do what they can
I've got two (clap, clap) helping hands

I've got two (huh, huh) amazing arms
I've got two (huh, huh) amazing arms
They'll hug you and hold you
and keep you from harm
I've got two (huh, huh) amazing arms

I've got two (wah, wah) awesome ears
I've got two (wah, wah) awesome ears

I listen to the wonderful things that they hear
I've got two (wah, wah) awesome ears

I've got two (stomp, stomp) feelin' good feet
I've got two (stomp, stomp) feelin' good feet

They skip and jump and run down the street
I've got two (stomp, stomp) feelin' good feet
I've got two (blink, blink) sparkling eyes
I've got two (blink, blink) sparkling eyes
They see everything in the earth and the skies
I've got two (blink, blink) sparkling eyes

I've got two (clap, clap) helping hands
I've got two (clap, clap) helping hands
They may be small but they do what they can
I've got two (clap, clap) helping hands

4) Butterfly, Bumble Bee

Butterfly, butterfly

Flying to a flower

Butterfly, butterfly

Here to drink some nectar

You didn't always have your beautiful wings

You show us how life is a changing thing

Once a caterpillar

Now a butterfly (butterfly, butterfly)

Bumble bee, bumble bee

Flying to a flower

Bumble bee, bumble bee

Here to drink some nectar

They say you couldn't fly with such tiny wings

You show us how to do amazing things

We'll fly, you and me (bumble bee)

Fly up to the sky (I can fly)

Like a butterfly, butterfly, butterfly,

Bumble bee, bumble bee, bumble bee,

I can fly

5) I'm Gonna Find A Way

I keep on working till I figure it out
Figure it out, figure it out
I keep on working till I figure it out
I'm gonna find a way

I might have to do it again and again
5-6-7-8-9-10
I might have to do it again and again
But I'm gonna find a way

I keep on working till I figure it out
Figure it out, figure it out
I keep on working till I figure it out
I'm gonna find a way

I might have to turn things inside out
Inside out, inside out
I might have to turn things inside out
But I'm gonna find a way

I keep on working till I figure it out
Figure it out, figure it out
I keep on working till I figure it out

I'm gonna find a way

Something beautiful is about to happen

Something beautiful today

Something beautiful is about to happen

Something beautiful, come my way

9) Slow Groove

There was a race between the turtle and the rabbit
The turtle had his groove but the rabbit didn't have it
The rabbit ran fast then he stopped and looked around

He set his own pace, and it was a

11) I Can Write Any Song I Want

I can write any song I want
My life is a melody
I can write any song I want
The music's up to me

On a beautiful day I go outside to play
Feeling alive and free
Kittens and puppies, cats and dogs
Romp around with me

I can write any song I want
My life is a melody
I can write any song I want
The music's up to me

Running fast, bare foot in the grass
Chasing a butterfly
Spinning around making silly sounds
A rainbow paints the sky

I can write any song I want
My life is a melody
I can write any song I want
The music's up to me

12) I Am a Rubber Band

Hey, Jack, I bounce back – rubber band

Hey, Jack, I bounce back – rubber band

I'm sturdy, I'm strong

Not afraid to get dirty all day long

Hey Jack, Hey Jill

Am I gonna make it? You know I will 'cause

Chorus:

I am a rubber band

I am a rubber band

Who can bounce back? I can

I am a rubber band

I'm stretchable, I'm flexible – rubber band

I'm stretchable, I'm flexible – rubber band

I stretch, I flex

Always ready for what comes next

I shrink, I grow

Stop and think, everybody knows that

Chorus:repeat chorus

I hold things together – rubber band

I hold things together – rubber band

I hold it together, never mind the weather

Sturdy and strong all day long

I stretch and bend, I flex again

I'm elastic, I'm fantastic

Jack and Jill came walking down the hill

Everything alright, what a beautiful sight

Say, how did you fix your water can?

Said, put it back together with a rubber band

Chorus:repeat chorus
