

## NEW DAY LYRICS

### 1) New Day

#### Chorus:

New Day, New Day  
Must be a million ways  
To celebrate a New Day

#### Verse:

Baby bird hops out of its nest  
Flaps its wings and tries  
Maybe today will be the day  
That baby bird starts to fly

Chorus: Repeat chorus

#### Verse:

Growing a garden, I've planted seeds  
Hoping for some flowers soon  
Maybe today will be the day  
Those flowers start to bloom

Chorus: Repeat chorus

#### Verse:

Learning how to ride my bike  
I've had some ups and downs  
Maybe today will be the day  
I ride my bike all around

Chorus: Repeat chorus

#### Verse:

There's a dream I want to do  
Heard you are a dreamer too  
Maybe today will be the day  
Our dreaming starts to come true

Chorus: Repeat chorus

## 2) Anything's Possible

### Chorus:

Anything's possible, anything's possible  
Anything's possible, anything's possible  
I am growing and I am going so far

With my ability, with my ability  
There's possibility, there's possibility  
I am dreaming and I am reaching for stars  
Anything's possible

I can be a ballet dancer spinning around  
I can be a farmer planting seeds in the ground  
A voice in a choir, a part of a team  
A teacher who is helping little children to read

### Chorus: Repeat chorus

I can be an astronaut and fly up in space  
I can be a runner in a marathon race  
A doctor who heals, a chef who cooks meals  
The President of the United States

### Chorus: Repeat chorus

### 3) Spinning

Patiently spinning, you move in mid air  
Skillfully weaving your silvery strands  
With great care

Back and forth, up and down  
Every end a beginning  
Eight little spider legs dancing, spinning

Patiently spinning  
See how your web grows  
Wish I knew all of the magical things  
That you know

Back and forth, up and down  
Every end a beginning  
Eight little spider legs dancing, spinning

Wish I knew all the magic in you

Patiently spinning, your work is complete  
Silvery, beautiful, magical strands  
Your masterpiece

Now I know what you want me to see  
My own beautiful masterpiece spinning inside of me

Back and forth, up and down  
Every end a beginning  
I go dreaming, doing, dancing  
Spinning

#### **4) A Place Called Hope**

**(each line is echoed)**

**There is a place  
I want to be  
It's a place called Hope  
Where I am free**

**To take a chance  
On a brand new day  
I'm growing strong  
Going to find my way  
In a place called Hope**

**There is a boat  
She sails the sea  
It's my boat called Hope  
And she carries me**

**Through waters rough  
Through waters calm  
All my dreams on board  
I keep moving on  
In a boat called Hope**

**There is a train  
Waiting just for me  
It's a train called Hope  
So much to see**

**Out across the land  
Moving down the track  
No matter where I go  
Always brings me back  
Oh, my train called hope**

**There is a place  
Deep in my heart  
It's a place called Hope  
That's where I start**

**To take a chance  
I'm going to be alright  
Going to dream my dream  
Going to shine my light  
In a place called Hope (x6)**

For all the world to see

Chorus: Repeat chorus

## 6) Shine, Shine Beautiful Light

I love playing in the sunshine, wishing on a star  
Dancing in the light of the moon  
But my favorite light in this beautiful world  
Is the light I see shining in you

Shine, shine beautiful light  
Shine, shine, shine  
My favorite light in this beautiful world  
Is the light I see shining in you

Sometimes the way may be cloudy and dark  
But a new day is dawning soon  
'Cause my favorite light in this beautiful world  
Is the light I see shining in you

Shine, shine beautiful light  
Shine, shine, shine  
My favorite light in this beautiful world  
Is the light I see shining in you

## 8) Something Special

### Chorus:

Something special, something new  
Something that I hope to do  
It can happen, it can come true  
Something special I hope to do

I'll power up my brain, listen to my heart  
Take a little step, make a little start  
It can happen, it can come true  
Something special I hope to do.

### Verse:

Thomas Edison liked to invent  
And he worked on hundreds of experiments  
An electric light bulb was just out of sight  
But he worked and he worked until his light lit up the night  
It was something he hoped to do  
And it happened, his dream came true

Chorus: Repeat chorus

### Verse:

Harriett Tubman escaped in the night  
Following the stars to freedom's light

But she faced the danger again and again  
Freeing so many of her family and friends  
It was something she hoped to do  
And it happened, her dream came true

Something special, something new  
Something that I hope to do  
It can happen, it can come true  
Something special I hope to do

## 9) I'm Blue – Good News

I'm blue, I'm blue  
I tried but I can't tie my shoes  
I'm blue, I'm blue, I'm blue

I know what I'll do  
I find someone who can tie their shoes  
I'll watch and learn and try  
Again and again and again

And before very long  
I'll be singing a brand new song  
Good news, good news, good news  
I can tie my shoes

I'm gonna jump, I'm gonna run  
I gonna climb and slide and have some fun  
'Cause I tried. Now I can tie my shoes

So if you're feeling blue  
If there's something you've been trying to do  
You can watch and learn and try  
Again and again and again

And before very long  
You'll be singing a brand new song  
Good news, good news, good news  
Good news, good news, good news
