

Dandelion

Dandelion yellow and bright
Reaching to the sun
Dandelion closed up tight
When the day is done

Next time you open you're flyaway white
Seeds dancing in the wind
Dandelion plant yourself right
Grow bright and yellow again

I can be yellow and bright
Reaching to the sun
I can be closed up tight
When the day is done

Next time I open I'm flyaway white
Seeds dancing in the wind
Dandelion I'll plant myself right
To grow bright and yellow again

'Cause I Love It

Take me on a walk in the woods, 'cause I love it
Sing along to my favorite song, 'cause I love it
Help me paint a pretty picture, 'cause I love it
Hold my hand whenever you can, 'cause I love it

I love everything that we do
But most of all, I love you

Let's talk when we are in the car, 'cause I love it
Let me explore some more, 'cause I love it
Wipe away the sorrow when I'm sad, 'cause I love it
Make the face that makes me laugh out loud, 'cause I love it

I love everything that we do
But most of all, I love you

Give me a snug bug hug, 'cause I love it
Show me a mile wide smile, 'cause I love it
Read the book again and again, 'cause I love it
Kiss me when you tuck me in, 'cause I love it

I love everything that we do
But most of all, I love you

I love everything that we do
But most of all, I love you

I Clap, I Shout

CHORUS:

I clap – (clap, clap, clap, clap, clap, clap)

I Shout – hooray, hooray, hooray!

I let – (clap, clap, clap, clap, clap, clap)

It out – hooray, hooray, hooray!

When we – (clap, clap, clap, clap, clap, clap)

We play – hooray, hooray, hooray!

I clap – (clap, clap, clap, clap, clap, clap)

I Shout – hooray, hooray, hooray!

VERSE:

Come and play, little baby, don't you say maybe

Come and get covered over in your lovey, dovey gravy

I'll be your rocking horse, be your raggedy doll

Be your racing rocket, be your bouncing ball

CHORUS: Repeat chorus

VERSE:

Come and coo, little cutie, sweet like tooty fruity

Come and shuffle your feet and shake your little booty

I'll be your favorite blankie, be your jelly bean

Be your happ'ly ever after and your in-between

RAP:

L-let's act a little silly and play a game

I love when you giggle 'cause I say your name

Now clap (clap, clap, clap, clap, clap, clap)

And let's shout – hooray, hooray, hooray!

Make a little party every time you're near

'Cause your laughin' and your talkin', music in our ears

Let's clap (clap, clap, clap, clap, clap, clap)

And let's shout – hooray, hooray, hooray!

Yea, and let it out, let it out

Just clap and shout, just clap and shout

And just let it out, yea, let it out!

Wipe It Away

Wipe away the messes
Wipe away the tears
Wipe away the troubles
Wipe away the fears

Anything that's not supposed to stay
We wipe it away

Wipe away the ketchup
Wipe away the dirt
Wipe away the booboos
Wipe away the hurt

Anything that's not supposed to stay
We wipe it away

Wipe it away – if it's spilled and sticky
Wipe it away – if it's "oops" or "icky"
Wipe it away – if it's just plain yucky
You and me, we sure are lucky we can

Wipe away the mud
Wipe away the rain
Wipe away the "ow-ies"
Wipe away the pain

Anything that's not supposed to stay
We wipe it away
We wipe it away
We wipe it away

Make a Face

Make a face – I'll make it too
Wave your arms – I'll copy you
Make a face – I'll make it too

Hold a pose – I'll hold it too
Make a statue – I'll copy you
Hold a pose – I'll hold it too

From our noses to our toes-es
Making faces, holding poses
Sharing every way it goes is
What this silly song supposes

Move your feet – I'll move mine too
Shake your legs – I'll copy you
Swing your hips – I'll swing mine too

Bust a move – I'll bust it too
Do a dance – I'll dance with you
Cut loose – me too!

From our noses to our toes-es
Making faces, holding poses
Sharing every way it goes is
What this silly song supposes

Make a face – I'll make it too
Wave your arms – I'll copy you
Hold a pose – I'll hold it too
Make a statue – I'll copy you

Bust a move – I'll bust it too
Do a dance – I'll dance with you
Cut loose – me too!
Make a face – I'll make it too

Only Food in My Mouth

CHORUS:

Only food in my mouth
Everything else stays out
My mouth is for the things I drink and eat
Water, food and treats
Everything else stays out
Only food in my mouth

VERSE:

First comes breakfast – in my mouth
Then comes lunch – in my mouth
A snack to munch – in my mouth
Everything else stays out

Then comes dinner – in my mouth
Then a treat – in my mouth
I brush my teeth – in my mouth
Everything else stays out

CHORUS: repeat chorus

VERSE:

Kale and carrots – in my mouth
Bananas and beans – in my mouth
Some water, please – in my mouth
Everything else stays out

Milk and cookies – in my mouth
Mac and cheese – in my mouth
More water, please – in my mouth
Everything else stays out

CHORUS: repeat chorus

“Walk this way.”

Hello Sky, Hello Earth

Hello sky, Hello earth

Eyes to the front, feet to the back

Belly to the ground, heart to the sky

Bottom in the air

Breathe in, breathe out (x3)

Feet to hands, eyes to the front

Hello earth, hello sky

I am a mountain high

Breathe in, breathe out (x3)

The Sun Always Shines

When it's raining, I feel sad
When it's cloudy, I feel blue
Then you smile and it's not so bad
'Cause every time I see you

The sun shines in my heart
The sun shines in my mind
When I'm with you I find
The sun always shines

When it's gloomy and so grey
When I don't know what to do
You chase all of the gloom away
'Cause every time I with you

The sun shines in my heart
The sun shines in my mind
When I'm with you I find
The sun always shines

The sun still shines beyond the rain
The sun still shines above the clouds
No need to worry or complain
When we smile and sing out loud

The sun shines in my heart
The sun shines in my mind
When I'm with you I find
The sun always shines

The sun shines in my heart
The sun shines in my mind
When I think of you I find
When I hold you in my mind
When we're together, every time
The sun always shines

We Are Walking

We

We walk

We are walking

We are walking, you and me

Birds

Birds sing

Birds are singing

Birds are singing in a tree

[Instrumental]

Grass

Grass grows

Grass is growing

Grass is growing on the ground

Love

Love flows

Love is flowing

Love is flowing all around

We are walking, you and me

Birds are singing in a tree

Grass is growing on the ground

Love is flowing all around

We are walking, you and me

Birds are singing in a tree

Grass is growing on the ground

Love is flowing all around

Let's Pick a Picture

Let's pick a picture and make up a story
You and me
Let's pick a picture and make up a story
About what we see

The things and shapes and colors and lines
Are all we need for story time
Let's pick a picture and make up a story
You and me

Let's pick a picture and make up a story
You and me
Let's pick a picture and make up a story
About what we see

In a book, on the wall or one we make
For a story, a picture is all it takes
Let's pick a picture and make up a story
You and me

Look real close
Take your time
I'll wait to hear
The story you find

Let's pick a picture and make up a story
You and me
Let's pick a picture and make up a story
About what we see

The things and shapes and colors and lines
Are all we need for story time
Let's pick a picture and make up a story
You and me
You and me
You and me

Way, Way Deep

Way, way deep
Nestled in my love
Close your eyes, go to sleep
Dream the dream you're dreaming of

Ne'er a teardrop, ne'er a frown
Peacefulness all around
A vigil through the night I keep
Way, way deep

Way, way deep
Covered in my care
Close your eyes, go to sleep
Dream the dream that dreams you there

Ne'er a worry, ne'er a fear
Tenderness carries here
While your happy heart I keep
Way, way deep

Ne'er a teardrop, ne'er a frown
Peacefulness all around
While your happy heart I keep
Way, way deep
Way, way deep
